

$$234 - 81 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$341 - 82 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$464 - 58 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$747 - 68 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$834 - 55 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$343 - 26 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$642 - 67 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$431 - 54 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$237 - 19 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$231 - 89 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$165 - 78 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$281 - 67 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$342 - 57 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$651 - 42 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$654 - 88 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$535 - 89 = \underline{\quad}$$

[S22] Difference between a 3-digit and a 2-digit number

$$47 + \underline{\quad} = 750$$

[S22] Difference between a 3-digit and a 2-digit number

$$33 + \underline{\quad} = 400$$

[S22] Difference between a 3-digit and a 2-digit number

$$42 + \underline{\quad} = 561$$

[S22] Difference between a 3-digit and a 2-digit number

$$28 + \underline{\quad} = 553$$

[S22] Difference between a 3-digit and a 2-digit number

$$31 + \underline{\quad} = 550$$

[S22] Difference between a 3-digit and a 2-digit number

$$42 + \underline{\quad} = 700$$

[S22] Difference between a 3-digit and a 2-digit number

$$25 + \underline{\quad} = 430$$

[S22] Difference between a 3-digit and a 2-digit number

$$36 + \underline{\quad} = 440$$

[S22] Difference between a 3-digit and a 2-digit number

$$27 + \underline{\quad} = 715$$

[S22] Difference between a 3-digit and a 2-digit number

$$22 + \underline{\quad} = 821$$

[S22] Difference between a 3-digit and a 2-digit number

$$24 + \underline{\quad} = 531$$

[S22] Difference between a 3-digit and a 2-digit number

$$49 + \underline{\quad} = 845$$

[S22] Difference between a 3-digit and a 2-digit number

$$31 + \underline{\quad} = 610$$

[S22] Difference between a 3-digit and a 2-digit number

$$56 + \underline{\quad} = 813$$

[S22] Difference between a 3-digit and a 2-digit number

$$25 + \underline{\quad} = 730$$

[S22] Difference between a 3-digit and a 2-digit number

$$66 + \underline{\quad} = 910$$

[S22] Difference between a 3-digit and a 2-digit number
